Education

Guru Gobind Singh Indraprastha University

June 2020 – June 2024

Bachelor of Technology in Computer Science

Delhi, India

Relevant Coursework

- Data Structures
- Software Engineering
- OOPS
- DBMS
- Artificial Intelligence
- Operating System
- Computer Networks

Experience

Totality Corp

October 2023 – November 2023

Frontend Developer Intern

Remote

- Leveraged Reactjs to implement frontend features, resulting in a 30 % increase in user engagement and satisfaction and actively participated in code review meetings..
- Collaborated with teams, leading to a significant reduction in development time for project deliverables.
- Optimized codebase, resulting in an improvement in application performance and loading times.

The Sparks Foundation

November 2022 – December 2022

Web Developer Intern

Remote

- Developed a Basic Banking System enabling seamless money transfers and supervised evaluation of fellow interns tasks
- Spearheaded user interface development using ReactJs for enhanced user experiences..

Projects

ShopHub | *Reactjs, Javascript, Mockbee*

[Link](#)

- Designed and developed a comprehensive Ecommerce platform featuring a diverse range of products for men, women and children.
- Implemented user-friendly features like sorting by ratings and prices to facilitate quick and precise product searches.
- Integrated Razorpay Payment Gateway for making secure payments.

Cocktails Store | *Reactjs, Redux, API*

[Link](#)

- A website offering comprehensive cocktail information to users and fetches cocktail data from the Cocktail Db API providing real time update.
- Empowers users to explore and learn about a diverse range of cocktails.
- Utilized Redux for state management, ensuring a robust and scalable architecture for handling the dynamic cocktail data.

Expense Tracker | *Context API, Reactjs, CSS*

[Link](#)

- Developed an Expense Tracker application that allows users to efficiently manage their expenses by entering expense titles, amounts, and dates.
- Utilized React Hooks, including useState and useEffect, to manage component state and lifecycle effectively.
- Added a "filter by years" feature for easy categorization and analysis.

Technical Skills

Languages: C++, Javascript, Python

Developer Tools: VS Code, Netlify, Vercel, Render

Technologies/Frameworks: Git and GitHub, Reactjs, Nodejs, Expressjs, Tailwind CSS, Bootstrap

Databases: MongoDB, MySQL

Achievements

- Attained Top 12 position in the final round of HACKMAIT 4.0 hackathon.
- Secured Rank 11031 out of 1 lakh participants in Codekaze23 by Coding Ninjas.

Coding Profiles

Leetcode: prabal220
